UPDATE

BRONZE COMMAND

C&IP (Insp. Steve Burke) Steve Burke Emerson blockade has ended well.

Protective / NCRCC (Supt. Jim Efford) Mitch Monette Nothing of real significance; ensuring coordination among tactical asks and OPS asks.

Matt Lacand is leading the TSG side, everything is running through him.

Tying in with Air Services, trying to secure some helo support; may reach into C Div if needed to keep SQ in the loop. Looking to see what else is available from partners, would like to have a couple of helos here in Ottawa.

Martin Roach: Please do keep C Div in the loop to coordinate efforts.

National Div (Supt. Mitch Monette) Mitch Monette As above.

C Div (Supt. Martin Roach) Martin Roach Anticipating a few convoys to be joining from C Div, around 2,000 confirmed and 3,000 interested.

75 resources are available; sent numbers in for potential additional resources, will be good to go for the next two rotations.

Received additional small ask from partners for the Legislative Assembly. Will need to be coordinated, as this will have impacts for us in QC.

SQ has confirmed with OPP what they could provide for TSG, that letter has gone out; would like to be involved since that generated a lot of discussions with partners, so please include C Div on further asks. For instance, the Gatineau Police asked for resources, but SQ had already agreed to assist them.

Currently dealing with PM visit asks and the potential deployment to Ottawa, as well as some priority issues for C&IP.

O Div (Supt. Andy White) Andy White

FP Investigations (C/Supt. Sue Efford) Sue Efford No updates.

As yet, have not shared information with insurance companies; have a call in with ISU on this matter, as it is not clear what will happen if insurance is revoked on all trucks, and then truckers want to drive them away - the trucks will then be uninsured.

Further conversation coming with the banks to process how to revert the money back once the incident is over; some concerns raised with the law is drafted.

Chief Financial Office (CFO) (Christine LeJesse Couvrette)	Everyone should be using the right IO to track financial costs. If you are part of the GSB and not using it, there is an IO that will be communicated to you. Please use that IO, along with your own cost centre; all OT and expenses should be tracked on that IO with your own cost centre. Discussions with PS and other GOC officials are ongoing re: who will be responsible to reimburse expenses; other police forces are also looking to be reimbursed. Will have direction coming to you, so if you are asked by your other POJ colleagues, you'll have guidance to provide. Any questions about coding, please reach out to Josee Couvrette for assistance, if you do not know your FMA.

CHRO (Lauren Dowdall)	Lourena Williams	N/A
OHS (Sylvie Chateauvert)	Sylvie	Have put together information for the e-binder re: members who are ODS and are in attendance in support of the convoy. The information is not new, but there is a critical need to remind members of their roles and responsibilities when ODS. Further, regarding activities that suggest a conflict of interest, there will be information to note that while ODS, members are still accountable. Will also add information for managers and supervisors: there is an obligation to keep track of members and inform Health Services, which will kick in the disability management process. Important to have accurate documentation and ensure that the health services file for each member is up to date. This is relevant for the deployment list as well, this needs to be up to date (cannot expect to deploy a 02 when they are actually 04). This will be part of the e-binder, and can adjust for other needs.

National Communications (Zeina Harb)	Zeina Harb	Lots of movement on social media re: the messaging that went out around ceasing further unlawful activities; messages can be viewed on social media platform. Children's Aid society message to parents is fuelling anxiety on social media about what may be planned, as it urges parents to make necessary alternate care arrangements should they be unable to care for their children following police actions. Issuing positive and congratulatory messaging from the Commissioner to members. Media relations is receiving a large influx of messages on cryptocurrency crowd-funding, due to the announcement about freezing accounts connected to the Convoy. OPS issued joint statement speaking to integrated Command Centre and clear and actionable plan to bring an end to unlawful protest. Media availabilities went as planned today.
Gov't Coordination (Janna Rinaldi)	Janna	Tomorrow at SECU, motion will be brought by MP Rachel Danko to ask that officials (Ministers, Commissioner, CBSA president, OPP, OPS) appear before committee on Feb 23 or 24 to discuss the ongoing protests and the Act. Minister remains very interested in going to Windsor, will have more information after chatting tomorrow.
ATIP (David Janzen)	David Janzen	No updates.
Commissioner's Office (Terry-Lynn McD Roshan)	Roshan	Nothing to report.

Received the greenlight to action requests; getting close to a rough draft of the POU plan and will share with Protective so they are aware of what we will do, and how it will affect the posture. The plan is coming, will not leave until it is done.

GOLD COMMAND

Engagement with banks and financial institutions is being coordinated through FPCO FC, but the other elements - including procurement services, towing companies, designated areas, etc - that came into effect with the Emergency Measures Act, these need to be captured as well.
If the tools are used, we will be looking for reporting from all business lines through the NOC. Will need to modify the RFI that went out on the 13th to include those elements.

Keith Finn
Ongoing questions around members expressing concerns and support for the Convoy, which contravenes section 92 of the Code of Conduct. Looking to put together guidance so that we can address this issue.
